Caberg Pump Lining

Il Sistema CPL (Caberg Pump Lining) permette al motociclista di personalizzare la calzata ed ottimizzare il confort della casco. Grazie ai guanciali e al paranuca gonfiabili e regolabili, il motociclista può facilmente adattare la calzata secondo le caratteristiche morfologiche della propria testa. Il sistema esclusivo CPL consente un confort personalizzato, aiuta a ridurre notevolmente la rumorosità, e garantisce una perfetta calzata che si mantiene nel tempo.

*The CPL system ( Caberg Pump Lining) allows the rider to customize the fitting and maximize the comfort lining. Thanks to adjustable inflatable air cheek and neck pads, the rider can easily regulate the correct fitting according to his facial characteristics. The exclusive CPL system not only provides a personal comfortable fit and helps to minimize wind noise, but it also guarantees a long lasting comfortable fit .*
